AM Planning

---

The City of Fort Worth and the Fort Worth Police Department work hard to keep downtown Fort Worth safe. Here are some helpful reminders for staying safe in the city. We have also provided some numbers for you to keep handy in the event that you need them.

### **Tips for Travel**

Please stay in the crosswalks when crossing the streets. There is a lot of traffic in downtown Fort Worth and drivers don't expect you to be in the street anywhere except the crosswalk.

Stay in groups of 3 and 4 when walking downtown.

Take all of your things out of your vehicles when you park downtown.

Please have the emergency contacts for each student as well as pertinent health information on medication and allergies with you. Often times this information is already on a form stored in the nurse's office at your school.

### **Phone Numbers**

Non-Emergency Police Number – (817) 392-4222
