Texas FFA - Delegate Attendance

State Conventions | 2021-2026

Prepared for Jennifer Jackson | October 7, 2026

Chapter Representation

A chapter is considered represented if at least one student has a recorded check-in at any listed state convention session, including Fun Night or a concert. Checked-In Delegates is the sum of each chapter's highest recorded delegate count in a single session during the convention. It estimates delegate participation while allowing different students to rotate between sessions; it is not a unique student headcount or an arrival registration count. Unique Student Delegates counts each student once across all included convention sessions. Because chapters rotate students, that total can exceed the number of allocated delegates.

Year	Chapters With Delegate Check-Ins	Allocated Delegates	Checked-In Delegates	Percentage Checked-In	Unique Student Delegates
2026	831 of 1,105	4,108	3,611	87.9%	6,203
2025	805 of 1,098	4,227	3,398	80.4%	5,666
2024	671 of 1,084	4,133	2,814	68.1%	4,828
2023	861 of 1,085	4,005	3,462	86.4%	6,444
2022	820 of 1,081	3,728	3,148	84.4%	6,019
2021	707 of 1,062	3,372	2,566	76.1%	4,370

Reading the Session Comparisons

Percentage Checked-In on the summary table divides Checked-In Delegates by statewide Allocated Delegates. Session percentages divide recorded check-ins by the annual Checked-In Delegates total, providing a consistent comparison base for that year. Students may rotate between sessions, so adding session counts does not produce a unique convention headcount.

The following pages cover general and business sessions. Sessions with no check-in records are shown as No Check-In Data and excluded from chapter attendance frequency. Fun Night Only identifies chapters with check-ins only at other convention activities (Fun Night or concerts), with none at the listed general or business sessions.
